StatAdmin

StatAdmin is a web-based tool for statistics for managing user accounts. It rapidly gives a clear picture of how Urkund is being used, whether by the entire school, by a teacher team, or at individual teacher level. Teachers can be added, removed, or linked to various places in the organisation. It provides clear statistics and the benefits of Urkund.

Recommended for anyone tasked with managing Urkund within the school. Price 20 EUR per month.

Web training

A quick and effective way of learning more about Urkund. Urkund's Training Manager does the run-through live on the Web. The discussion is done by telephone. The focus is on the system's functionality. The training takes about 45 minutes, and is arranged for 5-10 participants.

Recommended for teachers in primary and secondary schools, universities and colleges. Price 330 EUR.

Training on site

For Urkund training on-site, our Training Manager does the run-through at the school. This is an attractive way of learning Urkund in detail. The training helps to raise awareness of the problems with plagiarism and to give greater impetus to using the system.

The training takes about 2 hours. The number of participants is not fixed, but the training is suitable for anywhere from 15 to 100 teachers.

Recommended for teachers in primary and secondary schools, universities and colleges. Price 490 EUR. Prices do not include any travel expenses.

The living plagiarism manual

Lecture with a run-through of what constitutes plagiarism, and how texts can be handled to avoid this. Based on the Urkund Plagiarism manual, we also provide tips and advice about how pupils and students can plan the writing process in order to get it done in time and to achieve the desired result.

Recommended for pupils and students in primary and secondary schools, universities and colleges. Price 450 EUR.

Advanced training pack

Urkund's advanced training pack for teachers and head teachers is on the theme "Preventing plagiarism through know-how, procedures and management". This is based on Urkund's 4-stage model. It provides the school with specific tools for dealing with plagiarism. Everything is customised to the organisation's needs and wishes. Choose the whole pack or some of the steps below.

Recommended for teachers and head teachers in primary and secondary schools, universities and colleges. Prices from 3 300 EUR. The price is calculated based on the size of the school and the resources required.

1. Analysis of the existing situation

We ask the teachers to answer a web survey. There are also interviews with some head teachers and a cross-section of teachers. The interviews are supplemented by questions sent by e-mail. Prices from 1 400 EUR.

2. Focus Day

2 A. Lecture

The advanced training day starts off with a lecture for teachers and head teachers. The lecture takes 1.5 - 2 hours, including two breaks. The lecturer has long and documented experience in the field. Can be ordered with an order for 2 B.

2 B. Workshop

Teachers and head teachers discuss a number of different situations based on the impressions gained during the lecture. The aim is to approach a consensus about the pros and cons of various methods for measuring proficiency after a particular stage. Prices from 800 EUR.

Price for the complete Focus Day (2A and 2B) from 1 400 EUR.

3. Feedback

Feedback is important. Based on the results from the previous steps, we produce proposals for a policy. These help to give the school clear guidelines for what matters when cheating is discovered, and the consequences and actions that ensue. This is valuable for both teachers and pupils. An action plan based on the views of the head teachers and teachers is produced. Can be ordered with orders for 1 and 2. Prices from 420 EUR.

4. Follow-ups

After the Focus Day, the school is provided with a programme for follow-ups, and an implementation plan for Urkund. This makes it easy to follow up the advanced training, and see what effects the work has had. Included with an order for the advanced training pack.
